## COLLEGE OF FINE ARTS

In the College of Fine Arts, the policies in each department governing credit and/or exemption for the scores on IB examinations vary according to how the curriculum covered by an examination fits the curriculum of the department. In most departments, academic credit and/or exemption is routinely awarded on the test scores. In some cases, the IB examination is reviewed by the faculty in the appropriate department to determine whether advanced placement and/or academic credit is warranted.

All students in the College of Fine Arts, if asking for credit for studio or performance credit, must participate in an audition or portfolio review, but students seeking art history or appreciation credit should consult with the chairperson of the department. A score of 4 or higher is required.

## MODERN LANGUAGES AND CLASSICS

A score of 5 or above on the HL exam in French, German, Latin or Spanish will qualify a student for credit in one upper- division course. A score of 4 will qualify a student for general elective credit in the domain area of knowledge. On the basis of departmental examinations and authorizations, the department can award credit in extraordinary cases.

## PSYCHOLOGICAL SCIENCE

A score of 5 or above on the HL exam in psychology will qualify a student for elective credit in one 200-level course if the student is receiving credit for Psychology 100 through means other than international baccalaureate course and examinations.
