# STUDENT HEALTH FORM INFORMATION

Welcome to Ball State University. The health and safety of everyone at Ball State is very important, and you play a key role in the University's efforts to maintain a safe and healthy campus. To help protect the entire community, all students are required to complete and submit the Ball State University Student Health Form. If you are under 18 years of age when signing the form, it must also be signed by a parent or guardian.

The information listed below will show you which immunizations we require from you prior to and following your arrival to Ball State.

# **PRIOR TO ARRIVAL**

It is mandatory to have the following immunizations completed in your home country before you arrive at Ball State:

Proof of two (2) measles vaccines (after first birthday)

Proof of two (2) mumps vaccines (after first birthday)

Proof of one (1) rubella vaccine (after first birthday)

Proof of one (1) tetanus/diphtheria vaccine (given after August 2010)

Proof of one (1) meningitis quadrivalent (ACWY) vaccine if under the age of 22 years

Proof of two (2) meningitis B vaccines if under the age of 24 years

The cost to get all of the vaccines listed above may be in excess of 600 US Dollars if you do not get these completed before you arrive at Ball State.

# **UPON YOUR ARRIVAL**

The final requirement you will need is to have a tuberculosis (TB) test performed in the United States. The Quantiferon blood test for TB will be obtained during orientation week at the Student Health Center.

TB testing performed in another country will not be accepted. The cost of this test is \$70.

The following pages include the Ball State University Student Health Form. Please email your completed and signed Student Health Form to healthcenter@bsu.edu.

# Student Health Form/Mandatory Immunizations

Welcome to Ball State University. The health and safety of everyone at Ball State is very important, and you play a key role in the University's efforts to maintain a safe and healthy campus. To help protect the entire community, all students are required to complete and submit the Ball State University Student Health Form. If you are under 18 years of age when signing the form, it must also be signed by a parent or guardian.

This form is divided into two sections. You should provide all the information in Section One and sign where indicated. The immunization information in Section Two is required by state law and must be provided by your health care provider or by attaching a copy of your immunization record from your high school, college, or health department. The information on this form is strictly for the use of Ball State University Health Services and will not be released to anyone without your knowledge and consent.

SECTION ONE — COMPLETE THIS SECTION BEFORE GOING TO YOUR HEALTH CARE PROVIDER

Below are options to submit the completed form. After you make a copy for your records, you can:

- 1. Bring the completed form with you to Orientation and drop it off at the Health Center table
- 2. Scan it in and email it to healthcenter@bsu.edu
- 3. Fax to 765-285-1103
- 4. Mail to Ball State University Amelia T. Wood Health Center, 1500 W. Neely Avenue, Muncie, IN 47306.

#### **IMPORTANT INFORMATION**

(Please keep a copy of entire form for your records.)

#### Campus Health Care

To meet the health care needs of students, a clinic is conveniently located in the Amelia T. Wood Health Center at 1500 W. Neely Avenue. Available services include the main Health Center clinic and physical therapy. Any student who pays the Health Fee each semester is eligible for services. The fee covers basic professional services at the Health Center, including evaluation by a physician or nurse practitioner, diagnosis, and plan of care. The Health Fee does not cover the cost of prescriptions and lab tests. For additional information on the services and fees, visit **bsu.edu/healthcenter**. Copies of this form may also be downloaded from the site.

#### Health Insurance

It is highly recommended that all Ball State students have adequate health insurance, should services beyond those covered by the student Health Fee be required. It is also important to review your insurance plan for any requirements or restrictions that may impact the student's care.

For example, the requirements may designate which location or facility a student must use. They may be required to obtain approval from a designated primary care physician before the service is provided. Understanding the benefits and requirements of your insurance plan in advance will make it much easier if you need services outside of the Health Center.

If a student has health insurance coverage, it is important he or she has a current and updated card along with a prescription benefit card. It is a good idea to include a copy of the front and back of the insurance card and prescription benefit card when submitting this Student Health Form. It will be beneficial to have the documents available, as it is easy to overlook such details when sick or in need of care.

#### **Special Needs and Accommodations**

If you have a special health need, please contact the Ball State University Student Health Center at 765-285-8431 before your arrival.

### **SECTION TWO — REPORT OF IMMUNIZATIONS**

This page needs to be signed and dated by a health care provider, or the student may attach a copy of the immunizations report from his or her high school, college, or health department. The health information provided will not be released without the student's consent and will be used only as a background for providing health care.

(Please keep a copy of entire form for your records.)
